The Women's Helping Hand Initiative 2nd Quarter Newsletter, April - June, 2020.

About us

The Women's Helping Hand Initiative (TWHHI) was established in March 2006 as a non-profit, non-governmental organization with the mission to help women wherever the need arises.

Our vision is to impact the society and promote gender equality, abolish abuse and empower women. TWHHI focuses on 5 major thematic areas.

MENTORING: TWHHI has developed several programs to mentor young adults to ensure they live productive lives and become positive influencers in their various communities.

REHABILITATION: TWHHI provides shelter services for young girls, women and children survivors of violence, abuse and trafficking.

EMPOWERMENT: Young adults and women are trained in skills that can easily be translated into an income. This has helped many women to fend for themselves and provide for their families.

AIDS AND SUPPORT: TWHHI supports community and organizations and directly impacts the lives of the women in such communities.

ADVOCACY: TWHHI advocates actively to different stakeholders on the issues affecting women and children through print, radio, visual media and our volunteers in every community.

8,000 face masks distributed

8,000 face masks were commissioned by TWHHI to be made by past step up students from our “Basic Sewing” course. Beneficiaries were people and organizations, to curtail the spread of COVID 19 in their communities. 80 past step up students were picked from the alumni and paid to make 100 masks each. The masks were distributed to organizations in the same communities where they were made. The face masks were given out to mosques, churches, markets, health care centers, police stations, motor parks, etc.

Spotlight Initiative

Community advocacy on Sexual and Gender Based Violence (SGBV) and COVID-19

TWHHI in collaboration with Spotlight Initiative, a UNFPA program and the Lagos state Domestic and Sexual Violence Response Team (DSVRT) organized a community advocacy on Sexual and Gender Based Violence (SGBV); rape, sexual assault and sexual harassment during the lockdown. Key tips on SGBV prevention and response programming from the start of an emergency, whether or not cases have been reported. Discussion points for field staff, community workers, volunteers, and community networks were shared and passed on to the general public. Various communities in Lagos Island, Ajegunle, Ikorodu and Yaba were educated on what to do, where and who to reach out to and also numbers to call when necessary. At TWHHI, we say; No! To Gender Based Violence, No! To sexual abuse and No! To drug abuse.

Community Advocacy

Advocacy in Ikorodu on COVID 19 and Sexual and Gender Based Violence prevention

Radio Program

TWHLI was live on Bond fm radio, 92.9 to raise awareness on Covid 19, Gender Based Violence prevention, sexual reproductive health also including uptake of antenatal care. A radio jingle was aired daily in the month of June to further spread the awareness campaign.

Hand Wash Project

The hand wash project, in collaboration with Spotlight Initiative provided and installed pedal-pushed hand wash stations in various local markets and healthcare centers in Yaba, Lagos Island, Ajegunle and Ikorodu in Lagos state. Given the impact of handwashing on global health and development, handwashing has been made stricter in every aspect of our lives especially during this pandemic. The importance of hand washing can never be over emphasized. Each hand wash station installed came with 25 litres of liquid soap. This is to prevent the spread of COVID-19 in their communities.

News

The Shelters

We are happy to report that we are all fine during the lockdown.

Shelter 1

Residents started rearing chickens. The love and care for the chicks makes us begin to doubt if the chickens will ever be eaten.

A vegetable patch has been planted by the residents. Fresh vegetables on the way.

Shelter 2

Knitting Classes

Knitting classes kept many hands busy during the lockdown. We look forward to showing you the finished works, soon.

Educational Classes

Bed, board, educational classes, skills acquisition and counselling continue in-house and also virtually via zoom with residents in need of support.

Pedal -pushed Handwash stations have been set up at the shelter entrances.

Step Up, Project Ayodele

Due to the COVID 19 lockdown, all training courses has been suspended until further notice to comply with the protocols aimed at stopping the spread of the disease.

Meetings

Milk sharing for 0-5 year-olds, the Seniors Monthly Meeting and The Bookshelf have all also been suspended until further notice due to the COVID 19 pandemic.

Please, stay safe!!!
